

# Working Together Ideas

Friday 10th November 2017

1. Next week, we will be starting our topic linked to Polar animals. We would like you to get creative this week and create a Polar animal mobile. Which animals will you choose? Can you name any other Polar animals? Do you know why they live there? What do they eat? How do they move?

2. Alternatively, you could have a go at creating a winter scene using a shoe box. Encourage your child to think carefully about the materials they choose and how they will join the materials together.

We really value our partnership with home. All mobiles or story boxes will be displayed and celebrated in the class.
