

Working Together Ideas

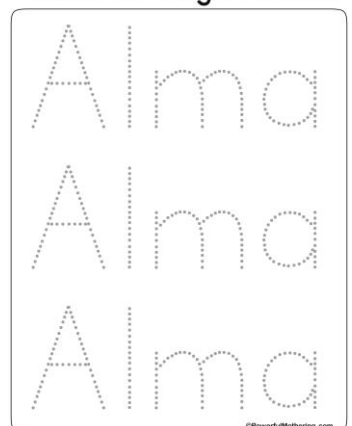

Friday 1st December 2017

1. We have been practising how to write our names in class. We know that we start on the orange dot as our starting point and then we join up the dots. We have been working hard to hold a pens correctly too and use our careful pencil control to stay as close to the dots as we can. We are getting so good at this. We have attached a copy of your child's name for you to practice at home. You may want to copy this before using it so that you have more to use or possibly laminate so that the pen can be wiped off and used again.

Name Writing Practice

Name Writing Practice

2. We know that you will be so impressed with your child's name writing so we have attached a WOW star for you to complete and bring in to add to our achievements wall. You may want to choose a different achievement to share with us too.
