

Working Together Ideas

Friday 3rd of November 2017

This week in maths we have been learning the names and properties of 3D shapes and discussing how they are different. Can you discuss with your child the names and the properties of the 3D shapes that they have learnt? Can they find any at home?

2. Next week is Anti-bullying week, we will be talking to the children about what makes a good friend and discussing our strengths.

Talk to your child about what makes a good friend and challenge them to make a 'How to be a good friend' poster for our outdoor area.
